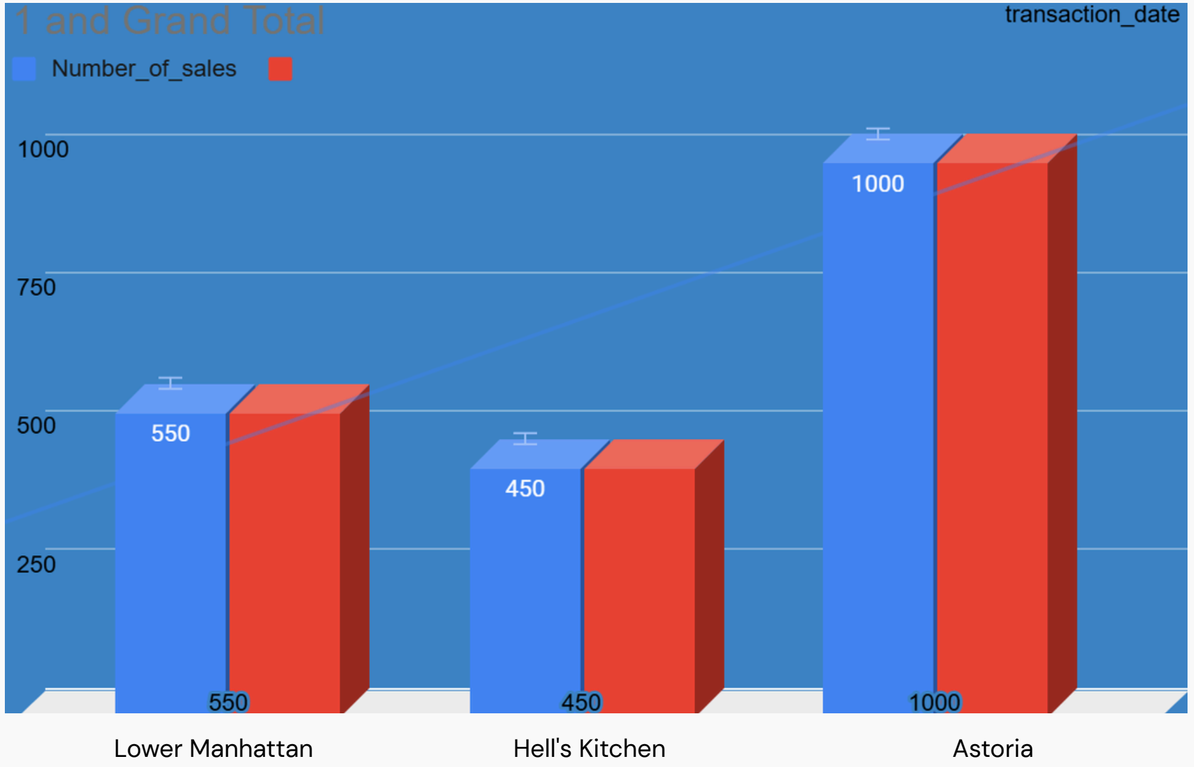
BRIGHT LIGHT COFFEE SHOP PRESENTATION

in this project presentation is about showing the steps on how how data is being processed and vitualized to give the way foward and the analysis on how was store perfoming or doing profit or not

NUMBER OF SALES VS STORE LOCATION GRAPH



Lower Manhattan

- the bright coffee shopis not doing well but better then Hell's Kitchen
  - Maybe is the shift of workers and the laziness of workers.
  - My might be the lack of support from customers.
  - might be location maybe the store is located far away from cutommers.

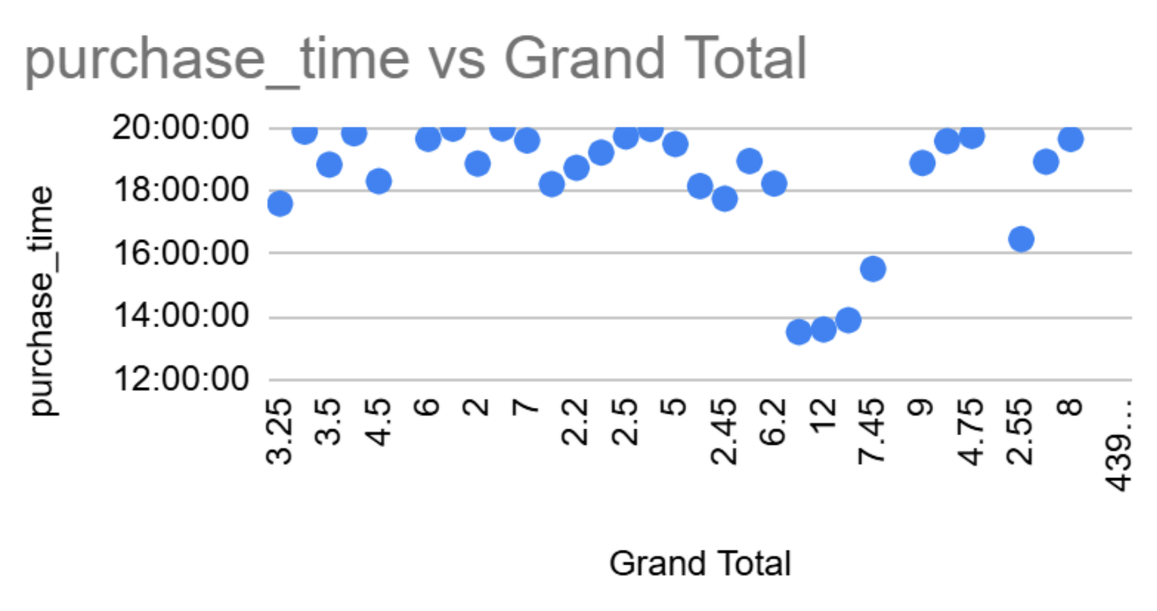
Astoria

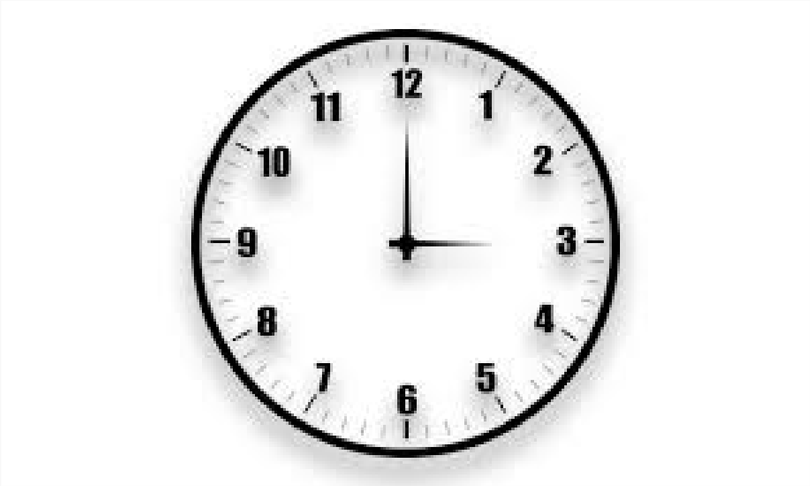
- They get full support from customers.
- they do well in business when it comes to customer service.
- their location allows them to attract more customers to improve sales

THIS IS JANUARY ANALYSIS ACROSS JANUNARY WITH THE NUMBER OF SALESS

Hell's Kitchen

- In January the Astoria did not do well in stead of the number of sales it 450 sales.
- the proble might the less number of customers , poor customer service of lact of managemen strategy .





Total Grand which is the to total Revenue Per Day VS Purchase time

- This ia an analysis to check time at which does the number of sales increases.
- Around 18;00 to 20;00 the number of sales increase which there is more customers in evening.
- On 12:00 to 16:00 there less number of sales which most profit in this coffee shop is generated during aftenoos
